

## eServGlobal announces new Billing contract in Latin America

**Sydney, 16 April 2008**

eServGlobal Limited (LSE: ESG & ASX: ESV), a provider of end-to-end solutions, enabling smart communication and payment services for service providers on any generation network, has signed a significant multi-million dollar contract with Intec Telecom Systems PLC, for the delivery of a Convergent Billing solution to Antel Uruguay.

eServGlobal's products will be part of Intec's solution that enables Antel to become the first and only convergent operator in the Latin American region to offer network and service convergence, through prepaid and postpaid wireline, wireless and broadband services with fully convergent, real-time charging capabilities, as well as electronic recharge.

Laurent Lafarge, CEO of eServGlobal said: "We are proud to be part of Intec's solution to meet the needs of the increasingly competitive Uruguayan market. We believe that the contribution of our products based on our ChargingMax Suite, eVoucher and Mobile POS plays a key role in ensuring Intec's overall solution is the most flexible, cost-effective and scalable billing solution in the world. eServGlobal has been a pioneer in the market with deliveries beginning in 2003, and today has installations throughout Europe, the Middle East and Asia. We believe that the Latin America market has significant demand for this technology and we will continue to invest in the region."

### **About eServGlobal**

eServGlobal (LSE: ESG & ASX: ESV) invents smart communication and payment services for telecommunications service providers operating on all generation networks.

eServGlobal's innovative solutions help service providers to grow new revenues, reduce churn, and lower costs. In addition, service providers are assured of seamless evolution to new network architectures, such as IMS and beyond.

As payment is crucial, eServGlobal's Charging Suite responds to increasingly sophisticated charging and billing challenges while providing advanced recharge and m-payment solutions. The innovative Retention Suite delivers targeted incentives to increase customer satisfaction and retention. Meeting customer demand for new communication experiences, the eServGlobal Messaging Suite enables reliable delivery of multimedia services such as unified messaging, video blog, SMS, and instant messaging. The Network Suite supplies enhanced personalisation and network optimisation.

Over 80 of the world's leading service providers, with over 400 million mobile subscribers in more than 50 countries, are taking advantage of eServGlobal's end-to-end solutions and expertise to quickly deliver revenue-generating services. With 14 offices around the world and staff from 20 different countries, we provide flexible solutions with ongoing product development, based on a deep understanding of our customers' challenges.

eServGlobal is active in the Latin America region, with significant deployments in Brazil, Dominican Republic, Nicaragua, and Mexico.

eServGlobal is listed on the Australian Stock Exchange (ASX: ESV) and the London Stock Exchange AIM market (LSE: ESG). More information can be found at: [www.eservglobal.com](http://www.eservglobal.com)
