

eServGlobal and Oberthur Card Systems Enhance Wataniya Algeria's E-Retail Operations with Integrated M-Pos Solution

Paris, 12 November 2007

eServGlobal Limited (LSE: ESG & ASX: ESV) and Oberthur Card Systems have successfully deployed their integrated Mobile Point of Sales (M-POS) and SIM Browser solution at Wataniya Telecom Algeria.

Wataniya Telecom Algeria, operating under the brand name of Nedjma, is Algeria's first multimedia mobile operator. Nedjma is running a state-of-the-art GPRS/EDGE network, providing advanced wireless voice and data services to a customer base of more than 3 million users in the country's fast growing market.

Charging with paper vouchers is still used by 80% of subscribers worldwide. However, logistic costs due to stock, fraud or shortage can reach 20% in some markets. With electronic distribution (E-Retail), Oberthur Card Systems and eServGlobal enable operators to cut all these costs and thus to increase their margin.

Using an integrated electronic recharge solution, retailers are now able to recharge any Wataniya prepaid subscriber account through e-Top Up transactions, without the need for vouchers.

The eServGlobal M-POS solution enables operators to build and manage an electronic recharge distribution and sales network encompassing thousands of retailers or street sellers.

Oberthur Card Systems' SIM browser provides secure transactions on a simple user-friendly interface. The SIM browser can also provide enhanced personalisation by being customized according to the profile of the POS agent, whether they are a dealer or retailer. Moreover, the Oberthur Card Systems' applet can encrypt all communications with Mobile POS, ensuring a high level of security for all credit transfers performed by the POS agents.

Mr Joseph Ged, General Director, Wataniya Algeria said: "eServGlobal and Oberthur Card Systems have provided us with an extremely cost-effective, highly flexible and secure e-Top Up solution which not only allows us to rapidly expand our e-retail operations, but does so in a way that makes life simpler for our agents. This acquisition also reinforces Nedjma's leadership in innovation".

About Qtel

Qatar Telecom (Qtel) is the exclusive telecommunications provider in Qatar. Its main activities include local and international fixed telephone, mobile, Internet, data and cable television services.

Qtel is committed to growing its presence in the Middle East and internationally. With Wataniya Telecom and its operations in the MENA region, Qtel is now active in 10 countries including Qatar, Oman, Singapore and Indonesia.

In November 2006, Qtel acquired a strategic 38% equity stake with AT&T in NavLink, a leading provider of Managed Data Services to businesses in the Middle East.

Qtel is a winner of the 2006 GCC Economic Award, and is listed on the Doha Securities Market and on other stock exchanges in the GCC.

About eServGlobal

eServGlobal (LSE: ESG & ASX: ESV) invents smart communication and payment services for telecommunications service providers operating on all generation networks.

eServGlobal's innovative solutions help service providers to grow new revenues, reduce churn, and lower costs. In addition, service providers are assured of seamless evolution to new network architectures, such as IMS and beyond.

As payment is crucial, eServGlobal's Charging Suite responds to increasingly sophisticated charging and billing challenges while providing advanced recharge and m-payment solutions. The innovative Retention Suite delivers targeted incentives to increase customer satisfaction and retention. Meeting customer demand for new communication experiences, the eServGlobal Messaging Suite enables reliable delivery of multimedia services such as unified messaging, video blog, SMS, and instant messaging. The Network Suite supplies enhanced personalisation and network optimisation.

Over 80 of the world's leading service providers, with over 400 million mobile subscribers in more than 50 countries, are taking advantage of eServGlobal's end-to-end solutions and expertise to quickly deliver revenue-generating services. With 14 offices around the world and staff from 20 different countries, we provide flexible solutions with ongoing product development, based on a deep understanding of our customers' challenges.
