The names and particulars of the directors of the company during or since the end of the financial period are:

Name	Particulars
Richard Mathews	<p>Non-executive Chairman.</p> <p>Richard is the Non-Executive Chairman and former Chief Executive Officer of eServGlobal. He has over 20 years' management experience in telecommunications, software and investment. He is a founding partner of MHB Holdings. Previously, Mr. Mathews was CEO of Mincom, Australia's largest enterprise software company, increasing the share price from \$2.50 to \$8.77 in a two-year period. He has also held the role of Senior Vice President, International at J.D. Edwards and is currently a Director of TransLink Transport Authority.</p> <p>He holds a Bachelor of Commerce and a Bachelor of Science and is an Associate Chartered Accountant.</p> <p>Richard was appointed as a director in July 2009.</p>
David Smart	<p>Non-executive Director and Chairman of the Audit Committee.</p> <p>David held senior executive positions in large scale manufacturing and merchandising businesses for more than 20 years. This includes 13 years as Chief Financial Officer of Tubemakers of Australia Limited and Metal Manufactures Limited. He is a non-executive director of a listed company Saunders International Limited.</p> <p>David holds a Bachelor of Commerce and MBA from the University of New South Wales and is a Fellow of the Australian Society of Certified Practicing Accountants.</p> <p>David has been a member of the Board since July 2000.</p>
François Barrault	<p>Non-executive Director and Chairman of the Remuneration and Nomination Committee.</p> <p>François is the founder and chairman of FDB Partners, an investment and consulting firm that specializes in technology, renewable energy and publishing. He has previously served as CEO of BT Global services, President of BT International, and as a member of the board and the operating committee of BT Group PLC.</p> <p>His extensive experience includes key roles within Lucent Technologies such as President, Mobility International and President and CEO for the EMEA region. Prior to Lucent, he worked at Ascend Communications, where he held the position of Senior Vice President, International. He has also held executive positions within IBM, Computervision/Prime and Stratus and was co-founder and Chairman of the Board of Astria, an e-commerce software supplier.</p> <p>He holds a Master of Science (D.E.A) in Robotics/AI and an E.D.P in Engineering from the Ecole Centrale de Nantes.</p> <p>François has been a member of the Board since March 2003.</p>

Directors' report

- Anthony Eisen Non-executive Director.
- Anthony Eisen resigned as a Director on 24 October 2011.
- James Brooke Non-executive Director.
- James is a Chartered Accountant with experience in strategic consulting, finance and investment. He is currently a fund manager at Henderson in the Henderson Volantis Small Cap Team with responsibility for active corporate engagement. He previously worked in the private equity industry for ten years, initially with 3i in the London buyout team and more recently as a venture capitalist with Quester where he specialized in IT services and telecommunications investments. Prior to this, he was with Deloitte's strategic consultancy business after having trained with them as a Chartered Accountant.
- He is a non-executive Director of Lochard Energy Group PLC and Renovo PLC.
- He holds a BA in Mathematics from Oxford University and an MSc in Telecommunications from University College London.
- Michael Jefferies Alternate non-executive Director for Anthony Eisen.
- Michael ceased as an alternate Director on 24 October 2011.
- Craig Halliday Executive Director.
- Craig is the Chief Executive Officer and Managing Director.
- Prior to eServGlobal, Craig served as Executive President of Field Operations (COO) at Mincom, where he achieved record-breaking growth in both revenues and profitability. He has worked in the high-tech industry as an executive and investor since 1996 and has held senior roles including President of PeopleSoft Japan and various management positions within J.D. Edwards.
- Craig holds a Bachelor of Science from Edinburgh University and is a member of the Institute of Chartered Accountants in England and Wales.
- Stephen Baldwin Non-executive Director
- Stephen is a qualified chartered accountant with over 25 years of business experience. He commenced his career with Price Waterhouse and had a total of 10 years with the firm in three different countries. He was subsequently employed in the funds management industry for 12 years, initially with Hambro-Grantham and then with Colonial First State (where he was that group's Head of Private Equity from 2000 to 2006). He has extensive Board experience, primarily with unlisted companies but was also the sole executive director of a listed investment vehicle for a number of years. Other current roles include advising one of Australia's larger superannuation funds on their global private equity program.
- Stephen holds a Bachelor of Commerce (Honours) from the University of Cape Town and is a member of the Institute of Chartered Accountants of Australia.
- Stephen was appointed a director and a member of the Audit and Remuneration and Nomination Committee on 25 November 2011.

⁽ⁱ⁾ Alternate director

⁽ⁱⁱ⁾ Non-executive Chairman

Company Secretary

Tom Rowe has served as Company Secretary of eServGlobal since 6 April 2011. He is a Corporate and Commercial Lawyer with a specialty in listed company secretarial practice. Mr Rowe holds a BA LLB (Hons) from the University of Adelaide and is an Associate of the Chartered Institute of Secretaries. He is the current Principal of Company Matters, a specialist provider of legal, governance and company secretarial services. Previously, he held the position of Legal Counsel and Company Secretary at CSR Ltd.

Principal activities

eServGlobal Limited specializes in Mobile Money solutions and Value-Added Services (VAS), to help Mobile Service Providers increase their revenue and gain and maintain customer ownership. eServGlobal invests heavily in product development, using carrier-grade, next-generation technology and aligning with the requirements of more than 70 customers in over 45 countries.

For more than 25 years mobile, fixed, Internet and telecom providers have used eServGlobal solutions to lead and innovate in their local markets, leveraging their core assets and their trusted agent and subscriber relationships.

With 13 offices globally, eServGlobal provides full “end-to-end” and “any account to any account” Mobile Money Services and International Remittance Services. eServGlobal’s HomeSend solution is the only mobile-centric international remittance hub to gain endorsement from the GSM Association.

eServGlobal’s Value-Added Services in promotions, loyalty and messaging enable service providers to engage with their subscribers in a personalized and dynamic manner.

To reduce time-to market and to meet the needs of operators and banks, eServGlobal provides multiple licensing alternatives as well as SaaS-based products and services.

Directors' report

Review of operations

This report is to be read in conjunction with other reports issued contemporaneously.

eServGlobal announced on 22 November 2011 that it had changed its financial year end from 30 June to 31 October. The change of year-end is intended to better align the company's reporting period with the budgeting cycles of its customer base given the shift in customers and operations since the divestiture of the USP business and assets to Oracle Australia Pty Limited.

The consolidated entity achieved sales revenue for the four month period of \$7.0M (year to 30 June 2011 \$42.8M). The four month period from 1 July to 31 October is traditionally a slow period for eServGlobal, incorporating Ramadan and the Northern hemisphere summer.

The EBITDA loss was \$6.2M (year to 30 June 2011 EBITDA profit \$52.2M). The net result of the consolidated entity for the four months to 31 October 2011 was a loss after tax and minority interest for the period of \$9.3M (year to 30 June 2011 profit after tax and minority interest \$39.2M). Loss per share was 4.7 cents (year to 30 June 2011: profit per share: 19.8 cents).

The operating cash flow for the period was a net outflow of \$8.8M. Total cash flow for the period was a net outflow of \$50.6M as a result of a dividend and capital distribution to shareholders in August 2011 (\$57.1M). Cash at 31 October 2011 was \$10.1M.

Changes in state of affairs

There were no significant changes in the state of affairs of the Group during the financial period.

Subsequent Events

On 30 July 2011 eServGlobal received notification from Oracle claiming that it had or anticipated incurring losses in connection with three alleged joint customer billing issues and was entitled to be indemnified by eServGlobal pursuant to the transaction agreements in connection with these losses. Oracle had claimed against the escrow fund in connection with these losses for the amount of \$11.5 million.

The claim on the escrow amount was resolved in November 2011. In accordance with the resolution, Oracle released the full \$11.5M escrow amount to eServGlobal and eServGlobal paid for services delivered by Oracle which were incurred and fully provided in the prior financial year.

Future developments

Disclosure of information regarding likely developments in the operations of the Group in future financial years and the expected results of those operations is likely to result in unreasonable prejudice to the Group. Accordingly, this information has not been disclosed in this report.

Share options

Share options granted to directors and executives

During the financial period and up to the date of this report the company granted nil options to executives and employees of the entity (year to 2011: 7,300,000).

Directors' report

eServGlobal Employee Share Option Plan

The company has an ownership-based remuneration scheme for directors, executives and employees. In accordance with the provisions of the scheme, directors and employees may be granted options to acquire ordinary shares in the company. The Board believes that the options scheme has a significant role to play in motivating employees to help ensure the continued performance of the company. The exercise of any share options is not dependant on any performance criteria, however, is dependent on a period of service relative to the vesting dates.

The company issued nil (year to June 2011: 7,300,000) options during the financial period.

At the date of this report directors, executives and employees are entitled to purchase 6,710,000 (June 2011: 7,760,000) ordinary shares of the entity at issue prices ranging from \$0.48146 to \$0.80146 per ordinary share. At 31 October 2011, 410,000 (30 June 2011: 460,000) of these options had vested. The options may be exercised at various times up until 10 February 2016. The holders of such options do not have the right, by virtue of the option to participate in any share issue or interest issue of any other body corporate or scheme, and do not participate in any dividends declared.

During the financial period 50,000 options lapsed/ expired. From the financial period end and up to the date of this report nil options expired and 1,000,000 options held by the Managing Director were cancelled in November 2011.

Further details of the executive and employee share option plan are disclosed in Note 6 to the financial statements.

Details of unissued shares under option as at the date of this report are:

Issuing Entity	Number of shares under option	Class of shares	Exercise price of option (i)	Expiry date of options
eServGlobal Limited	6,300,000	Ordinary	\$0.48146	10 February 2016
eServGlobal Limited	300,000	Ordinary	\$0.52146	6 March 2012
eServGlobal Limited	110,000	Ordinary	\$0.80146	3 October 2012

(i) In accordance with the terms of the employee share option plan, the exercise price of the options have been reduced by the capital return of \$0.16854 per share declared on 8 August 2011.

During the financial period and up to the date of this report, there were no options exercised.

Indemnification of officers and auditors

During the financial period, the company paid a premium in respect of a contract insuring the directors of the company (as named above), the company secretary, and all executive officers of the company and of any related body corporate against any liability incurred as a director, secretary or executive officer to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of the liability cover and the amount of the premium.

The company has not otherwise, during or since the financial period, indemnified or agreed to indemnify an officer or auditor of the company or of any related body corporate, against any liability incurred by such an officer or auditor.

Directors' attendance at Board and Committee meetings held during the financial period

Directors	Board of Directors		Audit Committee		Remuneration and Nomination Committee	
	Held*	Attended	Held*	Attended	Held*	Attended
David Smart	9	9	3	3	-	-
François Barrault	9	6	-	-	5	5
Anthony Eisen	9	6	3	2	5	5
Richard Mathews	9	9	-	-	-	-
James Brooke	9	6	-	-	-	-
Stephen Baldwin	-	-	-	-	-	-
Craig Halliday	9	7	-	-	-	-

*Held during term of director's appointment to Board, Audit or Remuneration and Nomination Committees. Stephen Baldwin was not a director during the financial period.

Directors' report

Non-audit services

The directors are satisfied that the provision of non-audit services, during the financial period, by the auditor (or by another person or firm on the auditor's behalf) is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001.

The audit committee, in conjunction with the Chief Financial Officer, assesses the provision of non-audit services by the auditors to ensure that the auditor independence requirements of the Corporations Act 2001 in relation to the audit are met.

Details of amounts paid or payable to the auditor for non-audit services provided during the financial period by the auditor are outlined in note 7 to the financial statements.

Auditor's independence declaration

The auditor's independence declaration is included on page 15 of the financial report.

Rounding off of amounts

The company is a company of the kind referred to in ASIC Class Order 98/0100, dated 10 July 1998, and in accordance with that Class Order, amounts in the directors' report and the financial report are rounded off to the nearest thousand dollars unless otherwise indicated.

Directors' report

Remuneration Report

Determining remuneration policy for directors and executives, and its relationship to eServGlobal's performance

The Company is listed on both the Australian Securities Exchange and the London Stock Exchange (AIM). It is an international group which is faced with all of the market pressures that flow in such circumstances. It must compete successfully with other international organisations that are substantially larger and which have the ability to draw on enormous resources. Our employees are based in diverse parts of the globe and regularly must travel to work in remote locations. The remuneration policies must be appropriate to these circumstances.

In determining the appropriate remuneration policies for the Group, the Board believes that the salary packages must be sufficient, in the international marketplace in which the Group operates, to attract, retain and motivate high calibre, hard working, dedicated employees, who have the knowledge and skills appropriate for the business. In this regard, a component of the salary package for employees is paid after the results of a financial year are completed, and the entitlement is based primarily on the results achieved by the Group. The Board's broad policy is implemented through its Remuneration and Nominations Committee.

Director and group executive details

The following persons acted as directors of the Company and the Group during or since the end of the financial period:

- Richard Mathews (Non-executive Chairman)
- David Smart (Non-executive director)
- François Barrault (Non-executive director)
- Anthony Eisen (Non-executive director, resigned 24 October 2011)
- Michael Jefferies (Alternate for Anthony Eisen, resigned 24 October 2011)
- James Brooke (Non-executive director)
- Craig Halliday (Chief Executive Officer and Executive Director)
- Stephen Baldwin (Non-executive director, appointed 25 November 2011)

The executives of the Group for the financial period to 31 October 2011 were:

- Craig Halliday (Chief Executive Officer)
- Stephen Blundell (Chief Financial Officer)
- Remi Arame (Vice President Sales)

Directors' report

Elements of director and executive remuneration

Non-executive directors are paid directors' fees and, in the case of those who are Australian based, compulsory superannuation fund contributions are made on their behalf. The Board reviews the level of fees from time to time, and sets individual non-executive directors fees based on the levels of fees for comparable listed companies in the appropriate parts of the world. The non-executive directors are appointed by either the Board or shareholder vote and any appointment is subject to re-election on retirement required at Annual General Meetings.

The Chief Executive Officer (CEO) is remunerated on a salary package that includes a base salary, and health plan contributions and a substantial portion that is a variable component, which is dependent on agreed performance objectives. The variable component comprises elements relating to achievement of financial plan and specific business objectives. The CEO is a permanent employee with no fixed employment term and a notice period of six months required by either party.

The Chief Financial Officer (CFO) is remunerated on a salary package basis that includes a base salary, pension contributions and a portion that is a variable component which is dependent on agreed performance objectives. The variable component comprises elements relating to achievement of financial plan and specific business objectives. The CFO is a permanent employee with no fixed employment term and a notice period of six months required by either party.

The Vice President Sales is remunerated on a salary package that includes a base salary, a portion that is a variable component (which is dependent on agreed performance objectives relating to sales), pension contributions and various allowances such as housing and education. The Vice President Sales is a permanent employee with no fixed employment term and a notice period of three months required by either party.

Directors' report

Elements of remuneration which are dependent on company performance

The Board believes that it is critical that the specified employees are driven by the financial performance of eServGlobal and, as detailed below, has structured executive packages so that a substantial portion of the variable component of their packages is directly linked to financial outcomes of eServGlobal. The targets are established annually and are approved by the Board at the same time as approval of the Group's business plan. The two key measures of this are: annual revenue and earnings before interest, tax, depreciation and amortisation components. This component is confirmed in conjunction with the completion of the financial statements. These targets are selected to ensure alignment of shareholders' interests with executive remuneration.

The tables below set out summary information about Group's earnings and movements in shareholder wealth for the four years to June 2011 and the four month period to October 2011:

	31 October 2011 \$'000	30 June 2011 \$'000	30 June 2010 \$'000	30 June 2009 \$'000	30 June 2008 \$'000
Revenue	7,017	42,808	78,015	147,246	177,934
EBITDA	(6,186)	52,173	(20,574)	(5,261)	24,162

	31 October 2011	30 June 2011	30 June 2010	30 June 2009	30 June 2008
Share price at start of year	\$0.730	\$0.600	\$0.455	\$0.820	\$0.960
Share price at end of year	\$0.520	\$0.730	\$0.600	\$0.455	\$0.820
Interim dividend		-	-	-	-
Final dividend ^{1,2}	12.1 cps	-	-	-	3.0 cps
Capital distribution	16.9 cps	-	-	-	-
Basic earnings per share	(4.7)	19.8	(16.5)	(20.1)	6.1
Diluted earnings per share	(4.7)	19.8	(16.5)	(20.1)	6.0

¹ Final dividend declared for the financial year ended June 2008 was unfranked.

² Declared after the balance date and not reflected as a liability in the financial statements.

Directors' report

The directors and the group's key executives received, or will receive, the following amounts as compensation for their services as directors and executives of the Group during the financial period:

Four months to 31 October 2011	Short-term employee benefits			Post Employment benefits	Share based payments	Termination Benefits	Total	Percentage of remuneration related to performance
	Salary & fees	Bonus (incl. variable pay component)	Non-monetary	Superannuation	Options			Total
	\$	\$	\$	\$	\$			\$
Non-executive Directors								
R Mathews	46,667	-	-	4,200	-	-	50,867	-
F Barrault	28,477	-	-	-	-	-	28,477	-
J Brooke (i)	-	-	-	-	-	-	-	-
A Eisen (i) (vi)	-	-	-	-	-	-	-	-

eServGlobal Limited

Directors' report

Directors' shareholdings

The following table sets out each director's relevant interest in shares and options in shares of the company or a related body corporate during the financial period and as at the date of this report.

Directors	Fully paid ordinary shares	Executive share options
David Smart	40,000	-
	62,005 ³	
	7,272,727 ⁵	
Craig Halliday	16,110,592 ²	-
François Barrault	500,000	-
Anthony Eisen ¹	38,316,296	-
	16,110,592 ²	
Richard Mathews	206,683 ³	-
James Brooke ⁴	35,153,419	-
Michael Jefferies ¹	38,316,296	-
Stephen Baldwin	932,600	

¹ Shares held or beneficially owned by Guinness Peat Group of which Anthony Eisen and Michael Jefferies are both executives.

² Relevant interest in shares held by MHB Holdings Pty Ltd.

³ Relevant interest in shares held by Paua Pty Ltd.

⁴ Shares held by Henderson Global Investors Limited of which James Brooke is an executive.

⁵ Shares held by National Nominees Limited

Value of options issued to directors and executives

Nil options were granted to or vested in directors and executives in the current financial period.

Executives receiving options are entitled to the beneficial interest under the option only if they continue to be employed with the Group at the time the option vests. Any exposure in relation to the risk associated with the movement in the underlying share price rests with the executive.

During the financial period no options were forfeited as a result of a condition required for vesting not being satisfied. 1,000,000 options held by the Managing Director were cancelled in November 2011.

The following table discloses the options granted, exercised or expired/cancelled during the financial period:

Name	Value of options granted at the grant date (i) \$	Value of options exercised at the exercise date \$	Value of options expired \$
R Arame	-	-	-
S Blundell	-	-	-
C Halliday	-	-	-

- (i) The value of options granted, exercised and lapsed is calculated based on the following:
- Value at grant date represents fair value of the option at grant date multiplied by the number of options granted during the financial period.
 - Value at exercise date represents fair value of the ordinary share received upon exercise of the option, less the option exercise price multiplied by the number of options exercised during the financial period.
 - Value at expiry/cancellation date represents fair value of the ordinary shares expired/cancelled multiplied by the number of options expired/cancelled during the financial period.

eServGlobal Limited

Directors' report

During the financial period, the following share-based payment arrangements were in existence.

Options series	Grant date	Expiry date	Exercise price	Grant date fair value
Issued 7 March 2007	07-Mar-07	2012	\$0.52146	\$0.33
Issued 4 October 2007	04-Oct-07	2012	\$0.80146	\$0.44
Issued 11 February 2011	07-Mar-11	2016	\$0.48146	\$0.16

(i) In accordance with the terms of the Employee Share Option Plan the options issued vest as to one-third on each of the first, second and third anniversary dates from the date of issue and expire five years from date of issue.

Signed in accordance with a resolution of the directors made pursuant to s.298 (2) of the Corporations Act 2001.

On behalf of the Board

Richard Mathews
Chairman

31 January 2012

31 January 2012

The Board of Directors
eServGlobal Limited
Suite 5
30 Florence Street
Teneriffe QLD 4006

Dear Board Members

eServGlobal Limited

In accordance with section 307C of the Corporations Act 2001, I am pleased to provide the following declaration of independence to the directors of eServGlobal Limited.

As lead audit partner for the audit of the financial statements of eServGlobal Limited for the financial period ended 31 October 2011, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- (i) the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- (ii) any applicable code of professional conduct in relation to the audit.

Yours faithfully

DELOITTE TOUCHE TOHMATSU

eServGlobal Limited

Corporate governance statement

The eServGlobal Limited board is responsible for establishing the corporate governance framework of the group having regard to the ASX Corporate Governance Council (CGC) published guidelines as well as its corporate governance principles and recommendations. eServGlobal is also required to comply with, inter alia, the Corporations Act 2001 (Cwth), the ASX Listing Rules and the London Stock Exchange AIM Rules for Companies. The table below and accompanying statement outlines the main corporate governance practices of eServGlobal during the financial period and the extent of eServGlobal's compliance with the CGC's recommendations as at the date of this report.

	Recommendation	Comply
Principle 1 – Lay solid foundations for management and oversight		
1.1	Companies should establish the functions reserved to the board and those delegated to senior executives and disclose those functions.	√
1.2	Companies should disclose the process for evaluating the performance of senior executives.	√
1.3	Companies should provide the information indicated in the Guide to reporting on Principle 1.	√*
	Recommendation	Comply
Principle 2 - Structure the board to add value		
2.1	A majority of the board should be independent directors.	x
2.2	The chair should be an independent director.	x
2.3	The roles of chair and chief executive officer (CEO) should not be exercised by the same individual.	√
2.4	The board should establish a nomination committee.	√
2.5	Companies should disclose the process for evaluating the performance of the board, its committees and individual directors.	√
2.6	Companies should provide the information indicated in the Guide to reporting on Principle 2.	√
	Recommendation	Comply
Principle 3 - Promote ethical and responsible decision-making		
3.1	Companies should establish a code of conduct and disclose the code or a summary of the code as to: <ul style="list-style-type: none">• The practices necessary to maintain confidence in the company's integrity;• The practices necessary to take into account their legal obligations and the reasonable expectations of their stakeholders; and• The responsibility and accountability of individuals for reporting and investigating reports of unethical practices.	√
3.2	Companies should establish a policy concerning diversity and disclose the policy or a summary of that policy. The policy should include requirements for the board to establish measurable objectives for achieving gender diversity for the board to assess annually both the objectives and the progress in achieving them.	x
3.3	Companies should disclose in each annual report the measurable objectives for achieving gender diversity set by the board in accordance with the diversity policy and progress towards achieving them.	x
3.4	Companies should disclose in each annual report the proportion of women employees in the whole organisation, women in senior executive positions and women on the board.	√

Recommendation	Comply
Principle 6 - Respect the rights of shareholders	
6.1 Companies should design a communications policy for promoting effective communication with shareholders and encouraging their participation at general meetings and disclose their policy or a summary of that policy.	√
6.2 Companies should provide the information indicated in the Guide to reporting on Principle 6.	√
Recommendation	Comply
Principle 7 – Recognise and manage risk	
7.1 Companies should establish policies for the oversight and management of material business risks and disclose a summary of those policies.	√*
7.2 The board should require management to design and implement the risk management and internal control system to manage the Company's material business risks and report to it on whether those risks are being managed effectively. The board should disclose that management has reported to it as to the effectiveness of the Company's management of its material business risks.	√
7.3 The board should disclose whether it has received assurance from the CEO [or equivalent] and the Chief Financial Officer (CFO) [or equivalent] that the declaration provided in accordance with section 295A of the Corporations Act is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial reporting risks.	√
7.4 Companies should provide the information indicated in the Guide to reporting on Principle 7.	√
Recommendation	Comply
Principle 8 – Remunerate fairly and responsibly	
8.1 The board should establish a remuneration committee.	√
8.2 The remuneration committee should be structured so that it: <ul style="list-style-type: none"> • Consists of a majority of independent Directors. • Is chaired by an independent chair. • Has at least three members. 	√*
8.3 Companies should clearly distinguish the structure of nonexecutive directors' remuneration from that of executive directors and senior executives.	√
8.4 Companies should provide the information indicated in the Guide to reporting on Principle 8.	√*

√* indicates partial compliance. Refer to further details below.

eServGlobal Limited

Corporate governance statement

Principle 1. Lay solid foundations for management and oversight

1.1 Companies should establish the functions reserved to the board and those delegated to senior executives and disclose those functions.

The primary responsibilities of eServGlobal's board include:

- the establishment of long term goals of the company and strategic plans to achieve those goals;
- the review and adoption of the annual business plan and budgets for the financial performance of the company and monitoring the results on a monthly basis;
- the appointment of the Chief Executive Officer;
- ensuring that the company has implemented adequate systems of internal control together with appropriate monitoring of compliance activities; and
- the approval of the annual and half-yearly financial statements and reports.

The board meets on a regular basis, on average at least once monthly, to review the performance of the company against its goals, both financial and non-financial. In normal circumstances, prior to the scheduled monthly board meetings, each board member is provided with a formal board package containing appropriate management and financial reports.

The responsibilities of senior management including the Chief Executive Officer are contained in letters of appointment and job descriptions given to each executive on appointment and updated at least annually or as required.

The primary responsibilities of senior management are to:

- (i) Achieve the annual business plan and budget
- (ii) Ensure the highest standards of quality and service are delivered to customers
- (iii) Ensure that employees are supported, developed and rewarded to the appropriate professional standards
- (iv) Ensure that the company continues to produce innovative technology and leading products

Decision making in respect of the functions reserved for the board and those delegated to management is in accordance with a delegation of authority policy and procedures adopted by the board.

1.2 Companies should disclose the process for evaluating the performance of senior executives.

The performance of all senior executives is reviewed at least once a year by the Chief Executive Officer, in conjunction with the full board. They are assessed against personal and company key performance indicators established at the start of each calendar year for each individual. For more detail, refer to the Remuneration Report.

1.3 Companies should provide the information indicated in the Guide to reporting on Principle 1.

A performance evaluation for each senior executive has taken place in the reporting period in line with the process disclosed. A statement covering the primary responsibilities of the board is set out in 1.1 above. A statement covering the primary responsibilities of the senior executives is set out in 1.1 above. A copy of the board charter is not publicly available.

eServGlobal Limited

Corporate governance statement

Principle 2. Structure the board to add value

2.1 A majority of the board should be independent directors.

The eServGlobal board consists of five non-executive directors and one executive director. David Smart, Stephen Baldwin and Francois Barrault are considered to be independent directors. Richard Mathews and James Brooke are not, and Anthony Eisen was not, considered to be independent by virtue of being associated with substantial shareholders of the company. Craig Halliday is not considered independent as he is the Chief Executive Officer of the company. As such, a majority of the board are not independent directors. Even though four directors during the financial period are not considered to be independent by virtue of the various indicia, the board believes that the composition was appropriate for the business during the financial period. Since the end of the financial period, the appointment of Stephen Baldwin has seen the board composed equally of independent and non-independent directors. The board believes the composition is appropriate at the present stage and will continue to review this on an ongoing basis.

2.2 The chair should be an independent director.

Richard Mathews is the former Chief Executive Officer of the Company and stepped into the position of Chairman of the Board in 2010. While this movement resulted in a chairman who is not independent, the company believes that a chairman with a strong knowledge of the company's operations is in the best interests of the company at this stage.

2.3 The roles of chair and chief executive officer should not be exercised by the same individual.

Richard Mathews is the company's Chairman and Craig Halliday is the Chief Executive Officer.

2.4 A nomination committee should be established.

The Company has established a Remuneration and Nomination Committee. The members of this Committee were Anthony Eisen and Francois Barrault during the period and is now Francois Barrault and Stephen Baldwin and, due to the size of the Committee, it functions informally. Many of the functions of the Remuneration and Nomination Committee were also carried out in conjunction with the full board.

2.5 Companies should disclose the process for evaluating the performance of the board, its committees and individual directors.

The eServGlobal chairman undertakes an annual informal evaluation process in reviewing the performance of directors and the board.

2.6 Companies should provide the information indicated in the Guide to reporting on Principle 2

A description of the skills and experience of each director is contained in the Directors' Report.

The names of the directors considered to be independent are specified in 2.1 above.

Directors are able to take independent professional advice at the expense of the company, with the prior agreement of the chairman.

The period of office held by each director is specified in the Directors' Report.

An informal evaluation of the board of directors did take place during the reporting period as described at 2.5 above.

New directors are selected by and voted on by the board. The board does not have a formal policy for the nomination and appointment of directors but considers the position on merit on a case by case basis. Any director appointed by the board must retire at the next Annual General Meeting of the company but may submit himself/herself for re-election. Further, each year, a third of directors retire by rotation and are subject to re-election by shareholders at the Annual General Meeting.

A copy of the Remuneration and Nomination Committee charter is not publicly available.

eServGlobal Limited

Corporate governance statement

Principle 3. Promote ethical and responsible decision-making

3.1 Companies should establish a code of conduct and disclose the code or a summary of the code as to:

- *the practices necessary to maintain confidence in the company's integrity;*
- *the practices necessary to take into account their legal obligations and the reasonable expectations of their stakeholders; and*
- *the responsibility and accountability of individuals for reporting and investigating reports of unethical practices.*

eServGlobal Limited's policies contain a formal code of ethics that applies to all directors and employees, who are expected to maintain a high standard of conduct and work performance, and observe standards of equity and fairness in dealing with others. The detailed policies and procedures encapsulate the company's ethical standards.

The code of ethics is available on the company's website www.eservglobal.com.

3.2 Companies should establish a policy concerning diversity and disclose the policy or a summary of that policy. The policy should include requirements for the board to establish measurable objectives for achieving gender diversity for the board to assess annually both the objectives and the progress in achieving them..

The company has not established a policy concerning diversity.

3.3 Companies should disclose in each annual report the measurable objectives for achieving gender diversity set by the board in accordance with the diversity policy and progress towards achieving them.

The company has not established measurable objectives for achieving gender diversity

3.4 Companies should disclose in each annual report the proportion of women employees in the whole organisation, women in senior executive positions and women on the board.

The proportion of women within the organisation is: 23%

Women within whole organisation:	52
Women in senior executive positions:	18%
Women on the board:	none

3.5 Companies should provide the information indicated in the Guide to reporting on Principle 3.

The company's business operations are conducted worldwide, its Code of Ethics has been designed to accommodate the business operations of all the countries in which the company operates. The Code of Ethics complies with Principle 3.1.

The financial period subject to this report is short and the company intends to put in place a diversity policy before the end of the following financial year and report on the policy and the measurable objectives in its next annual report.

eServGlobal Limited

Corporate governance statement

Principle 4. Safeguard integrity in financial reporting

4.1 The board should establish an audit committee.

The company has established an Audit Committee.

4.2 The audit committee should be structured so that it:

- **consists only of non-executive directors.**
- **consists of a majority of independent directors.**
- **is chaired by an independent chair, who is not chair of the board.**
- **has at least three members.**

The Audit Committee comprised David Smart and Anthony Eisen during the financial period and now includes Stephen Baldwin following Anthony Eisen's resignation. All members of the Audit Committee are qualified and experienced accountants. Of the Committee members, David Smart and Stephen Baldwin are considered to be independent directors. Despite this and despite not having at least three members, the board believes that the Audit Committee has the required independence and competence and is of an appropriate size for the company.

4.3 The audit committee should have a formal charter.

The company has adopted an Audit Committee charter.

4.4 Companies should provide the information indicated in the Guide to reporting on Principle 4

The names and qualifications of the audit committee members and the number of meetings of the audit committee are contained in the Directors' Report.

The Audit Committee charter is not publicly available on the company's website.

The Audit Committee meets with and receives regular reports from the external auditors concerning any matters that arise in connection with the performance of their role, including the adequacy of internal controls.

In conjunction with the auditors, the Audit Committee monitors the term of the external audit engagement partner and ensures that the regulatory limit for such term is not exceeded. At the completion of the term, or earlier in some circumstances, the auditor nominates a replacement engagement partner. The Audit Committee interviews the nominee to assess relevant prior experience, potential conflicts of interest and general suitability for the role. If the nominee is deemed suitable, the Audit Committee reports to the board on its recommendation.

Principle 5. Make timely and balanced disclosure

5.1 Companies should establish written policies designed to ensure compliance with ASX listing rule disclosure requirements and to ensure accountability at a senior executive level for that compliance and disclose those policies or a summary of those policies.

The eServGlobal board, Company Secretary and senior management are aware of the ASX Listing Rules, AIM Rules and Corporations Act disclosure requirements, and take steps to actively monitor and ensure ongoing compliance. At each board meeting, there is a separate agenda item on this topic where directors review the disclosures made by the company over the past month and consider any existing issues that may give rise to further required disclosure.

The Chairman and Chief Executive Officer continually monitor developments in the company and its business and in conjunction with the Company Secretary report any developments immediately to the board for consideration. All announcements are reviewed by the Company Secretary and/or other external legal advisers before release to the ASX or AIM.

5.2 Companies should provide the information indicated in the Guide to reporting on Principle 5.

The company's continuous disclosure policy is described above.

eServGlobal Limited

Corporate governance statement

Principle 6. Respect the rights of shareholders

6.1 *Companies should design a communications policy for promoting effective communication with shareholders and encouraging their participation at general meetings and disclose their policy or a summary of that policy.*

eServGlobal provides information to its shareholders through the formal communications processes (eg ASX & AIM announcements, annual general meeting, annual report, and shareholder letters). This material is also available on the eServGlobal website (www.eservglobal.com) and on the ASX and AIM websites.

Shareholders are encouraged to participate in the AGMs and time is set aside for formal and informal questioning of the board and senior management.

The company requests that its external auditor attend the annual general meeting and be available to answer any shareholder questions about the conduct of the audit and the preparation and content of the audit report.

6.2 *Companies should provide the information indicated in the Guide to reporting on Principle 6.*

The company's communications policy is described in 6.1 above.

Principle 7. Recognise and manage risk

7.1 *Companies should establish policies for the oversight and management of material business risks and disclose a summary of those policies.*

The board monitors the risks and internal controls of eServGlobal in conjunction with the Audit Committee. The Audit Committee looks to the Chief Executive Officer and Chief Financial Officer to ensure that an adequate system is in place to identify and, where possible, appropriately manage and mitigate risks inherent in the business, and to implement appropriate internal controls.

Categories of risks managed cover all major aspects of a global technology company. The details are not disclosed as this may disadvantage the company in regard to its competitors.

7.2 *The board should require management to design and implement the risk management and internal control system to manage the Company's material business risks and report to it on whether those risks are being managed effectively. The board should disclose that management has reported to it as to the effectiveness of the Company's management of its material business risks.*

The board has required management to design and implement the risk management and internal control system to manage the company's material business risks and report to it on whether those risks are being managed effectively. Management has reported to the board as to the effectiveness of the company's management of its material business risks.

7.3 *The board should disclose whether it has received assurance from the CEO [or equivalent] and the Chief Financial Officer (CFO) [or equivalent] that the declaration provided in accordance with section 295A of the Corporations Act is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial reporting risks.*

The board has received assurance from the Chief Executive Officer and the Chief Financial Officer that the declaration provided in accordance with section 295A of the *Corporations Act 2001* is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial reporting risks.

7.4 *Companies should provide the information indicated in the guide to reporting on Principle 7.*

The board has received the report from management under recommendation 7.2; the board has received assurance from the Chief Executive Officer and the Chief Financial Officer under recommendation 7.3; the company's policies on risk oversight and management of material business risks are not publicly available for the reason specified above.

eServGlobal Limited

Corporate governance statement

Principle 8. Remunerate fairly and responsibly

8.1 *The board should establish a remuneration committee.*

The Company has established a Remuneration and Nomination Committee. The members of that Committee during the period were Anthony Eisen, until his resignation as a director, and Francois Barrault. Stephen Baldwin was appointed as a member of the Remuneration and Nomination Committee in November 2011.

8.2 *The remuneration committee should be structured so that it:*

- Consists of a majority of independent directors
- Is chaired by an independent chair
- Has at least three members.

The members of that Committee during the period were Anthony Eisen, until his resignation as a director, and Francois Barrault. Stephen Baldwin was appointed as a member of the Remuneration and Nomination Committee in November 2011 and since his appointment the committee has consisted of a majority of independent directors.

The committee is chaired by Francois Barrault and despite not having three members and not having a majority of independent directors during the period, the board believes the size and membership of the committee is appropriate to discharge its mandate.

8.3 *Companies should clearly distinguish the structure of non-executive directors' remuneration from that of executive directors and senior executives.*

Non-executive directors are paid a fixed directors fee as set out in the Directors' Report.

Senior executives remuneration packages, which consist of base salary, fringe benefits, incentive schemes (including performance related bonuses), superannuation and pension payments and entitlements upon retirement or termination, are reviewed annually with due regard to performance.

8.4 *Companies should provide the information indicated in the guide to reporting on Principle 8.*

The members of the Remuneration and Nomination Committee and its operation are described above.

There are no schemes for retirement benefits, other than superannuation, for non-executive directors. Non-executive directors do not receive options or bonus payments.

A copy of the Remuneration and Nomination committee charter is not publicly available.

Independent Auditor's Report to the Members of eServGlobal Limited

Report on the Financial Report

We have audited the accompanying financial report of eServGlobal Limited, which comprises the statement of financial position as at 31 October 2011, the statement of comprehensive income, the statement of cash flows and the statement of changes in equity for the period ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the period's end or from time to time during the financial period as set out on pages 26 to 76.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 1, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with International Financial Reporting Standards.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance that the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control, relevant to the entity's preparation of the financial report that gives a true and fair view, in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Auditor's Independence Declaration

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of eServGlobal Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

Opinion

In our opinion:

- (a) the financial report of eServGlobal Limited is in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 31 October 2011 and of its performance for the period ended on that date; and
 - (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*;
- (b) the consolidated financial statements also comply with International Financial Reporting Standards as disclosed in Note 1.

Report on the Remuneration Report

We have audited the Remuneration Report included in pages 8 to 14 of the directors' report for the period ended 31 October 2011. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's Opinion

In our opinion the Remuneration Report of eServGlobal Limited for the period ended 31 October 2011, complies with section 300A of the *Corporations Act 2001*.

Directors declaration

The directors declare that:

- (a) in the directors' opinion, there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable;
- (b) the attached financial statements are in compliance with International Financial Reporting Standards, as stated in note 1 to the financial statements;
- (c) in the director's opinion, the attached financial statements and notes thereto are in accordance with the Corporations Act 2001, including compliance with accounting standards and giving a true and fair view of the financial position and performance of the consolidated entity; and
- (d) the directors have been given the declarations required by section 295A of the Corporations Act 2001.

Signed in accordance with a resolution of the directors made pursuant to section 295(5) of the Corporations Act 2001.

Notes to the Financial Statements for the financial period ended 31 October 2011

1. SUMMARY OF ACCOUNTING POLICIES

Statement of compliance

The financial statements are general purpose financial statements which have been prepared in accordance with the Corporations Act 2001, Accounting Standards and Interpretations, and comply with other requirements of the law.

The financial statements include the consolidated financial statements of the Group.

Accounting Standards include Australian equivalents to International Financial Reporting Standards ('A-IFRS'). Compliance with A-IFRS ensures that the financial statements and notes of the Group comply with International Financial Reporting Standards ('IFRS').

The financial statements were authorised for issue by the directors on 30th January 2012.

Reporting period

During the period, the Group changed its financial year from 30 June to 31 October. Accordingly, the current financial period is for the four months ended 31 October 2011. The comparative period is for the twelve months ended 30 June 2011.

Basis of preparation

The financial statements have been prepared on the basis of historical cost. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

The company is a company of the kind referred to in ASIC Class Order 98/100, dated 10 July 1998, and in accordance with that Class Order amounts in the financial statements are rounded off to the nearest thousand dollars, unless otherwise indicated.

The following significant accounting policies have been adopted in the preparation and presentation of the financial statements :

(a) Cash and cash equivalents

Cash and cash equivalents include cash on hand and in banks, deposits held at call with banks and financial institutions, investments in money market instruments with maturities of three months or less from the date of acquisition, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the statement of financial position.

(b) Employee benefits

Provision is made for benefits accruing to employees in respect of wages and salaries, annual leave and long service leave when it is probable that settlement will be required and they are capable of being measured reliably.

Provisions made in respect of employee benefits expected to be settled within 12 months, are measured at their nominal values using the remuneration rate expected to apply at the time of settlement.

Provisions made in respect of employee benefits which are not expected to be settled within 12 months are measured as the present value of the estimated future cash outflows to be made by the Group in respect of services provided by employees up to reporting date.

Defined contribution plans

Contributions to defined contribution superannuation plans are expensed when employees have rendered service entitling them to the contributions.

Notes to the Financial Statements for the financial period ended 31 October 2011

1. SUMMARY OF ACCOUNTING POLICIES (continued)

(c) Financial assets **Investments**

Financial assets are classified into the following specified category: 'loans and receivables'. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

Loans and receivables

Trade and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables'. Loans and receivables are measured at amortised cost using the effective interest method less impairment. Interest income is recognised by applying the effective interest rate.

Appropriate allowances for estimated irrecoverable amounts are recognised in profit or loss when there is objective evidence that the asset is impaired. The allowance recognised is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the effective interest rate computed on initial recognition.

The carrying amount of loans and receivables is reduced by the impairment loss through the use of an allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying value of the allowance account are recognised in profit and loss.

(d) Financial instruments issued by the Group **Debt and equity instruments**

Debt and equity instruments are classified as either liabilities or as equity in accordance with the substance of the contractual arrangement. An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recorded at the proceeds received, net of direct issue costs.

Transaction costs on the issue of equity instruments

Transaction costs arising on the issue of equity instruments are recognised directly in equity as a reduction of the proceeds of the equity instruments to which the costs relate. Transaction costs are the costs that are incurred directly in connection with the issue of those equity instruments and which would not have been incurred had those instruments not been issued.

eServGlobal Limited

Notes to the Financial Statements for the financial period ended 31 October 2011

1. SUMMARY OF ACCOUNTING POLICIES (continued)

(d) *Financial instruments issued by the Group (continued)*

Other financial liabilities

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs and are subsequently measured at amortised cost using the effective interest method, with the interest expense recognised on an effective yield basis. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

Trade payables

Trade payables are initially measured at fair value, and are subsequently measured at amortised cost.

(e) *Foreign currency*

Foreign currency transactions

All foreign currency transactions arising during the financial period are brought to account using the exchange rate in effect at the date of the transaction. Foreign currency monetary items at reporting date are translated at the exchange rate existing at reporting date. Non-monetary assets and liabilities carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured at historical cost in a foreign currency are not re-translated.

Exchange differences are recognised in profit or loss in the period in which they arise.

Foreign operations

All overseas subsidiaries, other than those that are part of the eServGlobal Holdings SAS group, report in their functional currency of AUD, in accordance with the requirements of AASB 121 "The Effects of Changes in Foreign Currency Exchange Rates" and as a consequence all exchange rate translation differences are taken to profit or loss. The eServGlobal Holdings SAS group reports in its functional currency of EUR and on consolidation, the assets and liabilities of the eServGlobal Holdings SAS group are translated at exchange rates prevailing at the reporting date. Income and expense items are translated at the average exchange rates for the period unless exchange rates fluctuate significantly. Exchange differences arising, if any, are recognised in the foreign currency translation reserve, and recognised in profit or loss on disposal of the foreign operation.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity on or after the date of transition to A-IFRS are treated as assets and liabilities of the foreign entity and translated at exchange rates prevailing at the reporting date.

eServGlobal Limited

Notes to the Financial Statements for the financial period ended 31 October 2011

1. SUMMARY OF ACCOUNTING POLICIES (continued)

(f) Goods and services tax

Revenues, expenses and assets are recognised net of the amount of goods and services tax (GST), except:

- i. where the amount of GST incurred is not recoverable from the taxation authority, it is recognised as part of the cost of acquisition of an asset or as part of an item of expense; or
- ii. for receivables and payables which are recognised inclusive of GST.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables.

Cash flows are included in the statement of cash flows on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

(g) Goodwill

Goodwill, representing the excess of the cost of acquisition over the fair value of the identifiable assets, liabilities and contingent liabilities acquired, is recognised as an asset and not amortised, but tested for impairment annually and whenever there is an indication that the goodwill may be impaired.

Any impairment is recognised immediately in profit or loss and is not subsequently reversed. Refer also to Note 1(h).

(h) Impairment of assets

At each reporting date, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

For the purpose of impairment testing, goodwill is allocated to the cash-generating units expected to benefit from the synergies of the business combination.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised in profit or loss immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised in profit or loss immediately.

eServGlobal Limited

Notes to the Financial Statements for the financial period ended 31 October 2011

1. SUMMARY OF ACCOUNTING POLICIES (continued)

(i) *Income tax*

Current tax

Current tax is calculated by reference to the amount of income taxes payable or recoverable in respect of the taxable profit or tax loss for the period. It is calculated using tax rates and tax laws that have been enacted or substantively enacted by reporting date. Current tax for current and prior periods is recognised as a liability (or asset) to the extent that it is unpaid (or refundable).

Deferred tax

Deferred tax is accounted for in respect of temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax base of those items.

In principle, deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that sufficient taxable amounts will be available against which deductible temporary differences or unused tax losses and tax offsets can be utilised. However, deferred tax assets and liabilities are not recognised if the temporary differences giving rise to them arise from the initial recognition of assets and liabilities (other than as a result of a business combination) which affects neither taxable income nor accounting profit. Furthermore, a deferred tax liability is not recognised in relation to taxable temporary differences arising from goodwill.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period(s) when the asset and liability giving rise to them are realised or settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by reporting date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax for the period

Current and deferred tax is recognised as an expense or income in profit or loss, except when it relates to items credited or debited directly to equity, in which case the deferred tax is also recognised directly in equity, or where it arises from the initial accounting for a business combination, in which case it is taken into account in the determination of goodwill or excess.

Notes to the Financial Statements for the financial period ended 31 October 2011

1. SUMMARY OF ACCOUNTING POLICIES (continued)

(j) Intangible assets

All intangible assets acquired in a business combination are identified and recognised separately from goodwill where they satisfy the definition of an intangible asset and their fair value can be measured reliably.

Software and Documentation

Software and Documentation are recorded initially at fair value and have an estimated useful life. Amortisation is charged on a straight line basis over their useful lives.

Customer Relationships

Customer Relationships are recorded initially at fair value and have an estimated useful life. Amortisation is charged on a straight line basis over their useful lives.

(k) Inventories

Inventories are valued at the lower of cost and net realisable value. Costs are assigned to inventory on hand by the method most appropriate to each particular class of inventory, with the majority being valued on a first in first out basis. Net realisable value represents the estimated selling price less all estimated costs to be incurred in marketing, selling and distribution.

(l) Leases

Operating lease payments, where substantially all of the risks and benefits remain with the lessor, are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals are recognised as an expense in the period in which they are incurred.

Lease incentives

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefits of incentives are recognised as a reduction of rental expense on a straight-line basis.

(m) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries) (referred to as 'the Group' in these financial statements). Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the period are included in consolidated profit or loss from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation.

eServGlobal Limited

Notes to the Financial Statements for the financial period ended 31 October 2011

1. SUMMARY OF ACCOUNTING POLICIES (continued)

(m) Basis of consolidation (continued)

Non-controlling interest in the net assets (excluding goodwill) of consolidated subsidiaries are identified separately from the Group's equity therein. Non-controlling interests consist of the amount of those interests at the date of the original business combination and the non-controlling interest's share of changes in equity since the date of the combination. Total comprehensive income is attributed to non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Acquisitions of subsidiaries and businesses are accounted for using the purchase method. The cost of the business combination is measured as the aggregate of the fair values (at the date of exchange) of the assets given, liabilities incurred or assumed, and equity instruments issued by the group in exchange for control of the acquiree. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under AASB 3 "Business Combinations" are recognised at their fair values at the acquisition date, except for non-current assets (or disposal groups) that are classified as held for sale in accordance with AASB 5 "Non-current Assets Held for Sale and Discontinued Operations", which are recognised and measured at fair value less costs to sell. Acquisition related costs are recognised in profit or loss as incurred.

Goodwill arising on acquisition is recognised as an asset and initially measured at cost, being the excess of the cost of the business combination over the groups interest in the net fair value of the identifiable assets, liabilities and contingent liabilities recognised. If after reassessment, the group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities exceeds the cost of the business combination, the excess is recognised immediately in profit or loss.

The interest of minority shareholders in the acquiree is initially measured at the minority's proportion of the net fair value of the assets, liabilities and contingent liabilities recognised.

(n) Property, plant and equipment

Plant and equipment, office furniture and fittings and leasehold improvements are stated at cost less accumulated depreciation and impairment. Cost includes expenditure that is directly attributable to the acquisition of the item. In the event that settlement of all or part of the purchase consideration is deferred, cost is determined by discounting the amounts payable in the future to their present value as at the date of acquisition.

Depreciation is provided on property, plant and equipment. Depreciation is calculated on a straight line basis so as to write off the net cost of each asset over its expected useful life to its estimated residual value. Leasehold improvements are depreciated over the period of the lease or estimated useful life, whichever is the shorter, using the straight line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each annual reporting period.

The following estimated useful lives are used in the calculation of depreciation:

Office furniture and fittings	5 years
Plant and equipment	3 years
Leasehold improvements	over the period of the lease

Notes to the Financial Statements for the financial period ended 31 October 2011

1. SUMMARY OF ACCOUNTING POLICIES (continued)

(o) Provisions

Provisions are recognised when the Group has a present obligation, the future sacrifice of economic benefits is probable, and the amount of the provision can be measured reliably.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that recovery will be received and the amount of the receivable can be measured reliably.

Onerous Contracts

An onerous contract is considered to exist where the Group has a contract under which the unavoidable cost of meeting the contractual obligations exceeds the economic benefits expected to be received. Present obligations arising under onerous contracts are recognised as a provision to the extent that the present obligation exceeds the economic benefits expected to be received.

(p) Research and development costs

Internally-generated intangible assets – research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred. Where no internally-generated intangible asset can be recognised, development expenditure is recognised as an expense in the period as incurred.

An intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above.

The expenditure capitalised includes cost of materials, direct labour and a proportion of overheads. Other development expenditure is recognised in profit or loss as an expense as and when incurred.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets acquired separately.

Notes to the Financial Statements for the financial period ended 31 October 2011

1. SUMMARY OF ACCOUNTING POLICIES (continued)

(q) Revenue recognition

Sale of Goods and Licences

Revenue from the sale of goods and licences is recognised when the Group has passed control of the goods or other assets to the buyer, except in the case of projects involving significant customisation where revenue is recognised by reference to the stage of completion of the project.

Rendering of Services

Revenue from services to supply custom designed and developed software or solutions is recognised by reference to the stage of completion of the project. The stage of completion is determined by assessing, at the reporting date, the level of actual services performed as a percentage of total services to be performed in relation to the project.

Revenue recognised in advance of the corresponding bill being raised is recorded as 'work in progress', whilst bills raised in advance of the services being performed is recorded as 'deferred income'.

Where a loss is expected to occur it is recognised immediately and a provision is made in relation to any future work on the contract.

Revenue from Support, Maintenance and Facilities Management Agreements

Revenue from support and maintenance contracts is recognised over time as it is earned.

Work in Progress

Work in progress is stated at the aggregate of contract costs incurred to date plus recognised profits less recognised losses and progress billings. If there are contracts where progress billings exceed the aggregate costs incurred plus profits less losses, the net amounts are presented in other liabilities.

Contracts costs include all costs directly related to specific contracts and costs that are specifically chargeable to the customers under the terms of the contract.

(r) Share-based payments

Equity-settled share-based payments are measured at fair value at the date of grant. Fair value is measured by use of either a Black Scholes or binomial model. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions, and behavioural considerations.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of shares that will eventually vest.

(s) Derivative financial instruments and hedge accounting

The Group uses derivative financial instruments (primarily foreign currency forward contracts) to hedge its risks associated with foreign currency fluctuations relating to transactions arising from specific customer orders. Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at each reporting date. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event, the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

Notes to the Financial Statements for the financial period ended 31 October 2011

1. SUMMARY OF ACCOUNTING POLICIES (continued)

(s) *Derivative financial instruments and hedge accounting (continued)*

The fair value of all derivative financial instruments outstanding at the reporting date are recognised in the statement of financial position as either financial assets or financial liabilities. Changes in the fair value of derivative financial instruments that are designated and effective as hedges of future cash flows are recognised directly in equity, with any ineffective portion being recognised in profit or loss. Amounts deferred in equity are recycled in profit or loss in the periods when the hedged item is recognised in profit or loss in the same line of the income statement as the recognised hedged item.

Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognised in profit or loss as they arise.

Derivatives embedded in other financial instruments, or other non financial host contracts, are treated as separate derivatives when their risks and characteristics are not closely related to those of the host contract, and the host contract is not carried at fair value with unrealised gains or losses reported in profit or loss.

(t) *Non-current assets held for sale*

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell.

(u) *Critical accounting judgments and key sources of estimation uncertainty*

The directors evaluate estimates and judgments incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and based on current trends and economic data, obtained both externally and within the Group.

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year:

Impairment of goodwill

The Group assesses impairment at each reporting date by evaluating conditions specific to the Group that may lead to impairment of goodwill. Where an impairment trigger exists, the recoverable amount of the asset is determined. Value-in-use calculations performed in assessing recoverable amounts incorporate a number of key estimates described in Note 12.

Revenue recognition

Revenue in relation to the supply of custom designed and developed software or solutions is recognised on each project by reference to the stage of completion of the project. The method of calculating the percentage completion of the project involves an element of judgement based on future project costs and profitability of each project. The information used to forecast these costs is based on historical events and current economic data on a customer by customer basis.

Notes to the Financial Statements for the financial period ended 31 October 2011

1. SUMMARY OF ACCOUNTING POLICIES (continued)

Unused tax losses

The recognition of unused tax losses as a deferred tax asset requires estimation and judgement of the availability of future taxable profits and is subject to compliance with the relevant tax legislations. At the date of this report, the directors have assessed the degree of probability of recovering the remaining unused tax losses. Accordingly, a deferred tax asset has been recognised to the extent that the probability criteria has been met.

(v) Adoption of new and revised Accounting Standards

In the current period, the Group has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to its operations and effective for the current annual reporting period.

Details of the impact of the adoption of these new accounting standards are set out in the individual accounting policy notes set out below.

Standards and Interpretations adopted with no effect on financial statements

The following new and revised Standards and Interpretations have also been adopted in these financial statements. Their adoption has not had any significant impact on the amounts reported in these financial statements but may affect the accounting for future transactions or arrangements.

- AASB 124 'Related Party Disclosures' (revised December 2009), AASB 2009-12 'Amendments to Australian Accounting Standards'
- AASB 2009-14 'Amendments to Australian Interpretation – Prepayments of a Minimum Funding Requirement'
- AASB 2010-5 'Amendments to Australian Accounting Standards'
- AASB 2010-6 'Amendments to Australian Accounting Standards – Disclosures on Transfers of Financial Assets'
- AASB 1054 'Australian Additional Disclosures'
- AASB 2011-1 'Amendments to Australian Accounting Standards arising from the Trans-Tasman Convergence Project'

Standards and Interpretations affecting the reported results or financial position

There are no new and revised Standards and Interpretations adopted in these financial statements affecting the reporting results or financial position.

eServGlobal Limited

Notes to the Financial Statements for the financial period ended 31 October 2011

1. SUMMARY OF ACCOUNTING POLICIES (continued)

Standards and Interpretations in issue not yet adopted

At the date of authorisation of the financial statements, the Standards and Interpretations listed below were in issue but not yet effective.

	Effective for annual reporting periods beginning on or after	Expected to be initially applied in the financial year ending
AASB 9 'Financial Instruments', AASB 2009- 11 'Amendments to Australian Accounting Standards arising from AASB 9' and AASB 2010-7 'Amendments to Australian Accounting Standards arising from AASB 9 (December 2010)'	1 January 2013	31 October 2014*
AASB 10 'Consolidated Financial Statements'	1 January 2013	31 October 2014
AASB 11 'Joint Arrangements'	1 January 2013	31 October 2014
AASB12 'Disclosure of Involvement with Other Entities'	1 January 2013	31 October 2014
AASB13 'Fair Value Measurement'	1 January 2013	31 October 2014
AASB 127 'Separate Financial Statements (2011)'	1 January 2013	31 October 2014

3. (LOSS)/PROFIT BEFORE TAX	Consolidated	
	Period Ended 31 October 2011 \$'000	Year Ended 30 June 2011 \$'000
(Loss)/Profit before tax has been arrived at after charging (crediting) the following:		
Net foreign exchange loss	566	1,517
Finance costs:		
Interest - other entities	605	162
Depreciation of non-current assets:		
Office furniture and fittings	51	245
Leasehold improvements	4	12
Plant and equipment	271	1,120
Total depreciation of non-current assets	326	1,377
Amortisation of intangible assets:		
Customer relationships, software and documentation	1,581	5,493
Operating lease rental expenses:		
Minimum lease payments	843	3,459
Net loss on disposal of non-current assets		
Plant and equipment	31	533
Impairment loss/(reduction) recognised on trade receivables (Note 8)	92	(208)
Employee benefit expense:		
Contributions to defined contribution plans	11	76
Other employee benefits	6,769	41,149
Total employee benefits expense	6,780	41,225
Share-based payments:		
Equity settled share-based payments	261	235
Total share-based payments	261	235

eServGlobal Limited

Notes to the Financial Statements for the financial period ended 31 October 2011

4. INCOME TAXES	Period Ended 31 October 2011 \$'000	Year Ended 30 June 2011 \$'000
(a) Income tax recognised in profit/(loss)		
Tax expense comprises:		
Current tax expense	1,212	10,805
Adjustments recognised in the current period in relation to the current tax of prior years	48	(19)
Deferred tax (income)/expense relating to the origination and reversal of temporary differences	(700)	(4,804)
Total tax expense	560	5,982
The prima facie income tax expense on pre-tax accounting profit/ (loss) from operations reconciles to the income tax expense in the financial statements as follows:		
(Loss)/profit from operations	(8,698)	45,141
Income tax expense/ (benefit) calculated at 30%	(2,610)	13,542
Non-deductible expenses	225	383
Foreign withholding tax credits not utilised	367	1,245
Deferred tax assets not recognised	2,441	3,743
Non-assessable item – research tax credits	-	(476)
Non-assessable income	(67)	(12,729)
Effect of different tax rate in foreign operations	156	293
Under/(over) provision of income tax in previous year	48	(19)
	560	5,982

The tax rate used in the above reconciliation is the corporate tax rate of 30% payable by Australian corporate entities on taxable profits under Australian tax law. There has been no change in the corporate tax rate when compared with the previous reporting period.

	Consolidated	
	31 October 2011 \$'000	30 June 2011 \$'000

eServGlobal Limited

Notes to the Financial Statements for the financial period ended 31 October 2011

4. INCOME TAXES (continued)

Tax consolidation

Relevance of tax consolidation to the consolidated entity

The company and its wholly-owned Australian resident entities have formed a tax-consolidated group and are therefore taxed as a single entity. The head entity within the tax-consolidated group is eServGlobal Limited. The members of the tax-consolidated group are identified at Note 24.

Nature of tax funding arrangements and tax sharing agreements

Entities within the tax-consolidated group have entered into a tax funding arrangement and a tax-sharing agreement with the head entity. Under the terms of the tax funding arrangement, eServGlobal Limited and each of the entities in the tax-consolidated group has agreed to pay a tax equivalent payment to or from the head entity, based on the current tax liability or current tax asset of the entity. Such amounts are reflected in amounts receivable from or payable to other entities in the tax-consolidated group.

The tax sharing agreement entered into between members of the tax-consolidated group provides for the determination of the allocation of income tax liabilities between the entities should the head entity default on its tax payment obligations. No amounts have been recognized in the financial statements in respect of this agreement as payment of any amounts under the tax sharing agreement is considered remote.

5. KEY MANAGEMENT PERSONNEL COMPENSATION

Key management personnel compensation policy

The Remuneration and Nominations Committee reviews the remuneration packages of all key management on an annual basis and makes recommendations to the Board. The Board's approach on Remuneration Policies is set out in the Remuneration Report which forms part of the Directors' Report.

The aggregate compensation made to key management personnel of the Group is set out as follows:

	Consolidated	
	Period Ended	Year Ended
	31 October 2011	30 June 2011
	\$	\$
Short-term employee benefits	672,594	3,412,023
Post-employment benefits	23,156	75,587
Termination benefits	-	238,324
Share-based payment	107,490	100,500
	<u>803,240</u>	<u>3,826,434</u>

eServGlobal Limited

Notes to the Financial Statements for the financial period ended 31 October 2011

6. EXECUTIVE AND EMPLOYEE SHARE OPTIONS

The Group has ownership-based remuneration schemes for directors, executives and employees of the Group. In accordance with the provisions of the scheme, directors and employees may be granted options to acquire ordinary shares in the company. The board believes that the options scheme has a significant role to play in motivating employees to help ensure the continued performance of the Group, although the obligations under A-IFRS to expense the notional benefit of options issued has impacted the attractiveness of issuing options. The vesting of any share options is not dependent on any performance criteria, however, is dependent on a period of service relative to the vesting dates.

During the financial period, the company issued no options (year to June 2011: 7,300,000).

Under the eServGlobal Employee Share Option Plan, established 4 August 2000 to assist in the attraction, retention and motivation of employees and Directors of the company and its related bodies corporate, at 31 October 2011, executives and employees are entitled to purchase an aggregate of 7,710,000 (30 June 2011: 7,760,000) ordinary shares of the entity at an exercise price ranging from \$0.48 to \$0.80 (30 June 2011: \$0.65 to \$0.97) per ordinary share. At 31 October 2011, 410,000 (30 June 2011: 460,000) of these options had vested. The options may be exercised at various times up until 10 February 2016. The holders of such options do not have the right, by virtue of the option to participate in any share issue or interest issue of any other body corporate or scheme, and do not participate in any dividends declared.

The following share-based payment arrangements were in existence during the period:

Option Series	Number	Grant Date	Expiry Date	Exercise Price \$	Fair value at grant date
Issued 7 March 2007 ⁽ⁱ⁾	350,000	07-Mar-07	2012	0.52146	115,500
Issued 4 October 2007 ⁽ⁱ⁾	110,000	04-Oct-07	2012	0.80146	48,583
Issued 11 February 2011 ⁽ⁱ⁾	7,300,000	07-Mar-11	2016	0.48146	1,203,040

In accordance with the terms of the Employee Share Option Plan:

- (i) options issued in these series vest as to one-third on each of the first, second and third anniversary dates from the date of issue and expire five years from date of issue.

In accordance with the terms of the Employee Share Option Plan, options may be exercised at any time from the date on which they vest to the date of their expiry.

eServGlobal Limited

Notes to the Financial Statements for the financial period ended 31 October 2011

6. EXECUTIVE AND EMPLOYEE SHARE OPTIONS (continued)

Options issued since June 2004

Options were priced by an appropriately qualified expert who chose to use the binomial pricing model. Where relevant, the expected life used in the model has been adjusted based on a best estimate for the effects of non-transferability, exercise restrictions and behavioural considerations. Expected volatility is based on the historical share price volatility over the past 5 years. The risk-free rate is sourced from the Reserve Bank of Australia. To allow for effects of early exercise, it was assumed that employees would exercise the options after vesting date when the share price was two times the exercise price.

Inputs into the models for the series of options issued post June 2004:

Issue Date	Share price at grant date	Risk free rate of return to expiry (p.a.)	Years to expiration/ exercise	Dividend yield (p.a.)	Volatility	Sub optimal early exercise factor
29-May-06	0.66	5.62%	5	0.0%	50.00% - 60.00%	2.00
7-Mar-07	0.77	5.80%	5	1.5%	45.00% - 55.00%	2.00
4-Oct-07	1.07	6.42%	5	1.5%	45.00% - 50.00%	2.00
26-Oct-07	1.05	6.41%	5	1.5%	45.00% - 50.00%	2.00
07-Mar-11	0.47	5.30%	4.93	0.0%	45.00%	none assumed

The following reconciles the outstanding share options granted under the executive share option plan at the beginning and the end of the financial period:

	October 2011		June 2011	
	Number of Options	Weighted average exercise price \$	Number of Options	Weighted average exercise price \$
Balance at the beginning of the period	7,760,000	0.656	1,052,854	0.697
Granted during the period	-	-	7,300,000	0.650
Expired/ lapsed during the period	(50,000)	0.690	(592,854)	0.741
Balance at the end of the period	7,710,000	0.656	7,760,000	0.656
Exercisable at the end of the financial period	410,000	0.765	460,000	0.757

eServGlobal Limited

Notes to the Financial Statements for the financial period ended 31 October 2011

6. EXECUTIVE AND EMPLOYEE SHARE OPTIONS (continued)

Exercised during the financial period

No options were exercised during the financial period, nor during the previous financial year.

Balance at the end of the financial period

The share options outstanding at the end of the financial period are as follows:

Issued	No	Vested No.	Unvested No.	Expiry Date	Exercise Price \$	Contractual Life (days)
Issued 7 March 2007	300,000	300,000	-	2012	\$0.52	127
Issued 4 October 2007	110,000	110,000	-	2012	\$0.80	338
Issued 11 February 2011 ⁽ⁱ⁾	7,300,000	-	7,300,000	2016	\$0.48	1,563
	<u>7,710,000</u>	<u>410,000</u>	<u>7,300,000</u>			

(i) Since the financial period end 1,000,000 options held by the Managing Director were cancelled in November 2011.

Deposits and accrued interest	551	1,111
	40,425	33,722

- (i) The average credit period on sales of goods and rendering of services is 60 days (June 2011: 60 days). Historically, the Group has had no requirement to charge interest on overdue receivables, although customer contractual terms include the ability to do this. Objective evidence is determined by reference to knowledge of disputes at balance date, where applicable. The Group also considers any change in the quality of the trade receivable from the date credit was initially granted up to the reporting date.

Before accepting any new customers, the Group obtains, where considered necessary, third party references to assess the potential customer's credit worthiness. The majority of the Group's outstanding trade receivables consist of large Telecommunication companies and are considered high quality creditworthy customers.

Included in the Group's trade receivable balance are debtors with a carrying amount of \$4.9 million (June 2011: \$7.6 million) which are past due at the reporting date for which the Group has not provided as there has not been a significant change in credit quality and the amounts are still considered recoverable. The Group does not hold any collateral over these balances. The average days overdue for these receivables is 133 days (June 2011: 89 days).

At the beginning of the financial period	6,499	6,820
At the end of the financial period	6,382	6,499

During the financial period, the Group assessed the recoverable amount of goodwill based on the methodology below, and determined that no further impairment was required (year to June 2011: \$ nil). The recoverable amount was assessed by reference to the cash-generating unit's value in use. A discount factor of 23% per annum (year to June 2011: 23% per annum) was applied in the value in use model. No write-down of the carrying amounts of other assets in the cash-generating unit was necessary.

Allocation of goodwill to cash-generating units

Goodwill has been allocated for impairment testing purposes to a single cash generating unit, being the entire business. This is because substantially the entire product list of the combined entity is available for sale to, and being sold to, substantially the entire customer base of the combined entity.

The recoverable amount of the cash-generating unit is determined based on a value-in-use calculation which uses cash flow projections based on financial budgets approved by management covering a 5 year period, and a terminal value based upon an extrapolation of cash flows beyond the 5 year period using an estimated growth rate of 3% per annum.

The key assumptions used in the value-in-use calculation for the cash generating unit are as follows:

- Sales are expected to grow over the forecast period by 10%.
- A gross margin of 60% over the forecast period: this is based upon average gross margins achieved in the period immediately before the forecast period.
- In performing the value-in-use calculations, the company has applied post-tax discount rates to discount the forecast future attributable post tax cash flows. The equivalent pre-tax discount rate is 23% per annum.
- Operating expenses are expected to increase steadily over the forecast period, but at a rate lower than the sales growth.

Management believes that any reasonably possible change in the key assumptions on which recoverable amount is based would not cause the aggregate carrying amount to exceed the aggregate recoverable amount of the cash-generating unit.

The loan is secured by way of a fixed and floating charge over the assets of the Group and is interest bearing at 9.75% per annum.

The Loan is to be repaid to the Shareholders, together with interest accrued within 12 months from 8 August 2011. The loan agreement allows the Company to extend the due date for the repayment for a further term of 12 months.

Subsequent to the balance sheet date \$2,000,000 of the loan from Guinness Peat Group International Holdings BV was repaid to them on 31 December 2011.

eServGlobal Limited

Notes to the Financial Statements for the financial period ended 31 October 2011

16. PROVISIONS

	Employee provisions \$'000	Retirement contribution plans (i) \$'000	Total \$'000

18. ISSUED CAPITAL		31 October 2011 \$'000	30 June 2011 \$'000
	196,847,706 fully paid ordinary shares (June 2011: 196,847,706)	90,770	123,946

	31 October 2011		30 June 2011	
	No. '000	\$ '000	No. '000	\$ '000
Fully Paid Ordinary Shares				
Balance at the beginning of financial period	196,848	123,946	196,848	123,946
Balance at the end of financial period	196,848	90,770	196,848	123,946

On 8th August 2011, based on the Company's shareholders approval, the directors declared a capital return of \$0.16854 per share and paid to shareholders on 23rd August 2011. Total amount paid was \$33,176,000.

Fully paid ordinary shares carry one vote per share and carry the right to dividends.

Changes to the then Corporations Law abolished the authorised capital and par value concept in relation to share capital from 1 July 1998. Therefore, the company does not have a limited amount of authorised capital and issued shares do not have a par value.

Share Options

In accordance with the terms of the executive and employee share option plan as at 31 October 2011, employees are entitled to exercise options granted and thus acquire shares in the company. Details of the executive and employee share option plan are contained in Note 6 to the financial statements.

d) Cash balance not available for use	420	418

The above cash balance which is not available for use is held as security by the financial institutions in relation to a financial guarantee that has been issued on behalf of the company. The cash balance is held in interest yielding account.

28. FINANCIAL INSTRUMENTS

a) Significant Accounting Policies

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which revenues and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in Note 1 to the financial statements.

b) Capital Risk Management

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from the year ended 30 June 2011.

The capital structure of the Group includes cash and cash equivalents and equity attributable to equity holders of the parent, comprising issued capital, reserves and retained earnings. At 31 October 2011 the Group had no borrowings against formalised available facilities disclosed in Note 27 (June 2011: \$ nil). The Group has borrowings of \$ 14.0m which are secured (June 2011: \$ nil). Operating cash flows are used to maintain and expand the Group's assets as well as to pay for operating expenses, tax liabilities and development activities.

c) Financial Risk Management Objectives

The Group's activities expose it to a variety of financial risks: market risk (including currency and interest rate risk), credit risk and liquidity risk. The Group's overall risk management program focuses on the unpredictability of financial and exchange rate markets and seeks to minimise potential adverse effects on the Group's performance. The Group seeks to minimise the effect of foreign currency risks using derivative financial instruments detailed at 28 (e). A risk management framework, including the policy on use of financial derivatives is governed by the Board of Directors. The Group does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

d) Market Risk

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates. The Group has entered into forward foreign exchange contracts to cover foreign currency receipts arising from specific customer orders. There has been no change to the Group's exposure to market risks or the manner in which it manages and measures the risk from the previous period.

eServGlobal Limited

Notes to the Financial Statements for the financial period ended 31 October 2011

28. FINANCIAL INSTRUMENTS (continued)

e) Foreign Currency Risk Management

The Group undertakes certain transactions denominated in foreign currencies that are different to the functional currency of the respective entities undertaking the transactions, hence exposures to exchange rate fluctuations arise. Exchange rate exposures arising from specific customer orders are managed within approved policy parameters utilising forward foreign exchange contracts.

The carrying amount of the Group's foreign currency denominated monetary assets and monetary liabilities at the reporting date that are denominated in a currency that is different to the functional currency of the respective entities holding the monetary assets and liabilities are as follows:

	Assets		Liabilities	
	31 October 2011	30 June 2011	31 October 2011	30 June 2011
	\$'000	\$'000	\$'000	\$'000
US dollars	3,346	3,469	55	189
Euro	253	166	99	-

Forward foreign exchange contracts

It is the policy of the Group to enter into forward foreign exchange contracts to cover foreign currency receipts arising from specific customer orders. The Group has entered into fixed price contracts to supply Software and Services and as a consequence has, in certain cases, entered into forward foreign exchange contracts (for terms not exceeding 12 months) to hedge the exchange risk arising from these transactions.

The following table details the forward foreign currency contract outstanding as at the reporting date:

Outstanding Contacts	Average Exchange Rate		Foreign Currency		Contract Value		Fair Value	
	October 2011	June 2011	October 2011 USD'000	June 2011 USD'000	October 2011 \$'000	June 2011 \$'000	October 2011 \$'000	June 2011 \$'000
Sell US Dollars								
Less than 3 months	1.0846	1.0671	394	79	363	74	(12)	-

eServGlobal Limited

Notes to the Financial Statements for the financial period ended 31 October 2011

28. FINANCIAL INSTRUMENTS (continued)

Foreign currency sensitivity analysis

The following table details the Group's sensitivity to a 10% increase and decrease in the Australian dollar against the relevant foreign currencies, which represents management's assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items (arising from monetary assets and liabilities held at balance date in a currency different to the functional currency of the respective entities holding the assets or liabilities) and adjusts their translation at a period end for a 10% change in foreign currency rates.

	USD Impact Consolidated	
	31 October 2011 \$'000	30 June 2011 \$'000
Profit or loss	378	406

	Euro Impact Consolidated	
	31 October 2011 \$'000	30 June 2011 \$'000
Profit or loss	37	16

A positive number indicates an increase in profit or loss with the Australian Dollar strengthening against the respective currency. For a weakening of the Australian Dollar against the respective currency there would be an equal and opposite impact on the profit, and the amounts above would be negative.

In management's opinion, the above sensitivity analysis is not fully representative of the inherent foreign exchange risk as the year end exposure does not necessarily reflect the exposure during the course of the year.

In addition, the Group includes certain subsidiaries whose functional currencies are different to the Group's presentation currency. The main operating entity outside of Australia is based in France. This entity transacts primarily in its functional currency, the Euro, and does not have significant foreign currency exposures, because of the hedging policies outlined above. As stated in the Group's Accounting Policies Note 1(e), on consolidation the assets and liabilities of these entities are translated into Australian dollars at exchange rates prevailing on the balance date. The income and expenses of these entities is translated at the average exchange rates for the period. Exchange differences arising are classified as equity and are transferred to a foreign exchange translation reserve. The Group's future reported profits could therefore be impacted by changes in rates of exchange between the Australian Dollar and the Euro.

f) Interest Rate Risk Management

The Group's exposure to interest rate risk at 31 October 2011 is limited to the interest generated on deposits balances invested during the course of the year which attract a variable interest rate and yielded a 4.6% (Year Ended 30 June 2011: 5.2%) weighted average interest rate for the financial period.

Interest rate sensitivity analysis

The Group's sensitivity to interest rates is restricted only to surplus cash placed on short-term deposit or short-term drawings on facilities utilised to manage operational cash requirements across the entities within the group.

Notes to the Financial Statements for the financial period ended 31 October 2011

28. FINANCIAL INSTRUMENTS (continued)

g) Credit Risk Management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted the policy of only dealing with creditworthy counterparties, as a means of mitigating the risk of financial loss from defaults. Trade receivables consist of a relatively small number of closely managed customers, spread across diverse geographical areas. Ongoing credit evaluation is performed on the financial condition of accounts receivable as part of the overall client management process.

The carrying amount of the financial assets recorded in the financial statements, net of any allowance for losses, represents the Group's maximum exposure to credit risk.

h) Liquidity Risk Management

Ultimate responsibility for liquidity risk management rests with the board of directors, who have built an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

Liquidity and interest risk tables

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows.

	Weighted average effective interest rate %	Less than 1 month \$'000	1-3 months \$'000	3 months – 1 year \$'000	1-5 years \$'000
Consolidated					
31 October 2011					
Trade payables - Non-interest bearing	-	1,476	738	-	-
Borrowings from shareholders	9.75%	-	-	14,000	-
30 June 2011					
Trade payables - Non-interest bearing	-	3,003	1,503	-	-
Bank borrowings	-	-	-	-	-

eServGlobal Limited

Notes to the Financial Statements for the financial period ended 31 October 2011

28. FINANCIAL INSTRUMENTS (continued)

The following tables detail the Group's expected maturity for its non-derivative financial assets. The tables have been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets except where the Group anticipates that the cash flow will occur in a different period based on the earliest date on which the Group can expect to receive payment. The table includes both interest and principal cash flows.

	Weighted average effective interest rate %	Less than 1 month \$'000	1-3 months \$'000	3 months – 1 year \$'000	1-5 years \$'000	5+ years \$'000
Consolidated 31 October 2011						
Cash and cash equivalents	3.93%	10,129	-	-	-	-
Deposits – interest bearing	3.50%	6,400	6,014	11,230	-	-
Deposits - Non-interest bearing	-	-	-	551	-	-
Trade receivables - Non-interest bearing	-	5,234	2,617	1,665	-	-
		21,763	8,631	13,446	-	-
30 June 2011						
Cash and cash equivalents	4.78%	61,060	-	-	-	-
Deposits – interest bearing	3.80%	-	12,208	-	12,208	-
Deposits - Non-interest bearing	-	-	-	871	-	-
Trade receivables - Non-interest bearing	-	6,877	3,438	2,188	-	-
		67,937	15,646	3,059	12,208	-

i) Fair Value of Financial Instruments

The fair values of financial assets and financial liabilities are determined as follows:

- The fair value of other financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions;
- Foreign currency forward contracts are measured using quoted forward exchange rates and yield curves derived from quoted interest rates matching maturities of the contracts.

The directors consider that the carrying amount of financial assets and financial liabilities recorded at amortised cost in the financial statements approximates their fair values.

31. SUBSEQUENT EVENTS

Claim from Oracle Australia Pty Limited

On 30 July 2011 eServGlobal received notification from Oracle claiming that it had or anticipated incurring losses in connection with three alleged joint customer billing issues and was entitled to be indemnified by eServGlobal pursuant to the transaction agreements in connection with these losses. Oracle had claimed against the escrow fund in connection with these losses for the amount of \$11.5 million.

The claim on the escrow amount was resolved in November 2011. In accordance with the resolution, Oracle released the full \$11.5M escrow amount to eServGlobal and eServGlobal paid for services delivered by Oracle which were incurred and fully provided in the prior financial year.
